

Privacy Policy

The Canam Systems Privacy Policy was updated on December 15, 2016.

Your privacy is important to Canam Systems. So we've developed a Privacy Policy that covers how we collect, use, disclose, transfer, and store your information.

Please take a moment to familiarize yourself with our privacy practices and contact us if you have any questions.

Collection and Use of Personal Information

Personal information is data that can be used to identify or contact a single person.

You may be asked to provide your personal information anytime you are in contact with Canam Systems. Canam Systems may share this personal information with its staff and use it consistent with this Privacy Policy. They may also combine it with other information to provide and improve our products, services, content, and advertising. You are not required to provide the personal information that we have requested, but, if you chose not to do so, in many cases we will not be able to provide you with our products or services or respond to any queries you may have.

What personal information we collect

- We may collect a variety of information, including your name, mailing address, phone number, email address and contact preferences.

How we use your personal information

- The personal information we collect allows us to keep you posted on Canam Systems latest product announcements, software updates, and upcoming events. If you don't want to be on our mailing list, you can opt out anytime.
- We also use personal information to help us create, develop, operate, deliver, and improve our products, services, content and advertising, and for loss prevention and anti-fraud purposes.
- From time to time, we may use your personal information to send important notices, such as communications about purchases and changes to our terms, conditions, and policies. Because this information is important to your interaction with Canam Systems, you may not opt out of receiving these communications.
- We may also use personal information for internal purposes such as auditing, data analysis, and research to improve Canam Systems products, services, and customer communications.

Collection and Use of Non-Personal Information

We also collect data in a form that does not, on its own, permit direct association with any specific individual. We may collect, use, transfer, and disclose non-personal information for any purpose. The following are some examples of non-personal information that we collect and how we may use it:

- We may collect information such as occupation, language, zip code, area code, location, and the time zone where a Canam Systems product is used so that we can better understand customer behavior and improve our products, services, and advertising.
- We may collect and store details of how you use our services, including search queries. This information may be used to improve the relevancy of results provided by our services. Except in limited instances to ensure quality of our services over the Internet, such information will not be associated with your IP address.

If we do combine non-personal information with personal information the combined information will be treated as personal information for as long as it remains combined.

Disclosure to Third Parties

Canam Systems does not disclose any personal information to any third party.

Protection of Personal Information

Canam Systems takes the security of your personal information very seriously. Canam Systems online services protect your personal information during transit using encryption and other security protocols. When your personal data is stored by Canam Systems, we use computer systems with limited access housed in facilities using physical security measures.

Integrity and Retention of Personal Information

Canam Systems makes it easy for you to keep your personal information accurate, complete, and up to date. We will retain your personal information for the period necessary to fulfill the purposes outlined in this Privacy Policy unless a longer retention period is required or permitted by law.

Location-Based Services

To provide location-based services Canam Systems may collect, use, and share precise location data, including the real-time geographic location of your computer or device. Location-based services uses GPS to determine your devices' approximate location. This location data is collected when a user clocks in or out of a job.

Our Companywide Commitment to Your Privacy

To make sure your personal information is secure, we communicate our privacy and security guidelines to Canam Systems employees and strictly enforce privacy safeguards within the company.
